

THE CHRONICLE

VOL. XIV. No. 47

CROSSFIELD, ALBERTA, THURSDAY, DEC. 22nd, 1921.

PRICE \$1.50 A YEAR.

WM. LAUT

XMAS CHEER

The Spirit of CHRISTMAS Must Prevail

In spite of poor crops and low prices, in spite of hard times and low spirits, the ancient custom of the giving of gifts must not be forgotten. Even though we must economise, let us at least remember the members of our own family and our nearest friends, and make of this Christmas the joyous festive season that it should be.

OUR STORE is the logical place to purchase gifts suitable for old and young and at prices to suit any purse.

Our Candy Department offers—

Candy, per pound	25c to 60c
Nuts, ..	25c to 40c
Cluster Raisins	40c package
Table Figs	20c "
Jap Oranges	\$1.35 per box
Popcorn	15c "

: Local and General :

We Wish All Our Readers A Merry Christmas

The postponed meeting of the Women's Institute will be held on Thursday, December 29th, at 3 p.m. in the Union Church. As this is one of the most important meetings of the year it is earnestly requested that everybody come.

A Masquerade Dance will be held under the auspices of Crossfield and District Agricultural Society, on January 2nd, in Conrad's Hall. Tickets, Gents \$1.00, Ladies 50c.

CHURCH OF THE ASCENSION.

Sunday, Dec. 25th, 1921
10 a. m. Sunday School
Services.—Every second Sunday in the month 11.00 a.m. Fourth Sunday 7.30 p.m.

This being Xmas Sunday, we shall have open school (no classes), and we extend a hearty invitation to any parents or friends to attend. We are hoping also at this service to present prizes for "good" conduct and best attendance, so be sure and come.

Parishoners Vestry meeting, on Saturday, December 6th. Time and place will be announced later.

We notice quite a large number of residents boarding the trains evidently going on a visit which will extend over Christmas festivities.

The local Hockey team played their first league game here on Tuesday night last. Olds were the opponents, a real good game which resulted in a win for Olds 3-1.

LOCAL AND GENERAL

The receipts from the sale of Pop-
pies on Armistice Day were handed
to the local Red Cross Society, they
forwarded same to the Red Cross
in Calgary. The following is part of
acknowledgment—

The Canadian Red Cross Society
Alberta Division

Calgary, Alberta.

December 19th, 1921

Dear Mrs. McRory,

I have your letter of December
14th enclosing \$21.45 for Soldiers'
Relief, being contribution made by
Mr. J. H. Whitfield, as the amount
realized from sale of Poppies. We
note that this donation is for Sol-
diers' Relief. I herewith enclose re-
ceipt No. 10811 and would request
that you convey our sincere thanks
to Mr. Whitfield for this contribu-
tion.

Yours faithfully

Mrs. C.B. Waagan.

Vice-Pres. and Hon. Sec'y-
Alberta Division.

Rev. R. K. Swenerton left town
the fore part of this week on a trip
to Los Angeles, Cal., he left the
following letter to be published:—

Dear Friends

and Fellow workers
I am going away on a trip that I
regard as of much necessity and im-
portance. In the arrangements
made for the Services in Crossfield
I am very well pleased. A fine list
of speakers has been secured. I re-
gret that it was found necessary to
omit the country Services but weath-
er conditions in January are unfa-
vorable for country work.

Wishing you all a Joyful Xmas
and a Bright New Year.

Yours sincerely

R. K. Swenerton

Liberal Party Is Returned To Power By Large Majority

Ottawa.—After ten years in opposition, the Liberal party is again returned to power. In the new House, Hon. W. L. Mackenzie King will have a clear majority over all parties. Of the three parties the Progressives stand second and the Government party third. In the three provinces of Prince Edward Island, Nova Scotia and Quebec, the Liberals swept every seat. The new National Progressive party, by securing sixty seats, will become a factor in Dominion politics. The Progressives did not secure the support that was expected in the east, but in the provinces of Alberta, Manitoba and Saskatchewan they made almost a clean sweep.

The government has retained little more than a third of the seats it held at dissolution. The prime minister was defeated in his own constituency and with him were defeated eight members of his administration. The defeated cabinet ministers were:

Rt. Hon. Arthur Meighen, prime minister.
Hon. L. P. Normand, president of the privy council.

Hon. Rodolph Monty, secretary of state.
Hon. L. G. Belley, postmaster general.

Hon. A. Fauteux, solicitor general.
Hon. C. C. Ballantyne, minister of marine and fisheries.

Hon. E. K. Spence, minister without portfolio.

\$30 A WEEK MECHANIC JUMPS TO \$750 A MONTH

Out in Chehalis, Washington, U.S.A., lives W. E. Pence, "Electrical Expert." Chehalis isn't much of a town, some where between 3,000 and 5,000 people, and Pence doesn't pretend to be a whirlwind "Master of Finances" by any means. But his income is the "talk of the town." With great pride he exhibits the books of his Electrical Business which show a net profit of \$750 a month.

Pence says himself, that he never dreamed of earning so much money two years ago. "At that time," he is making \$30 a week and wondering if the time would ever come when his pocket book would let him buy everything he wanted, like he now is able to do.

OWNES SUCCESS TO ELECTRICITY
Pence doesn't talk much about his success. He isn't that kind. But when he does talk about Electricity and the great future which it holds for men and boys—he hits "right from the shoulder."

Without any reservations he gives all credit for his amazing success to the thorough Electrical training which he has received in spare time during the past few months.

But let Pence tell his own story. Read his letter dated October 9, 1921, to L. L. Cooke, Chief Engineer of the Chicago Engineering Works:

Dear Mr. Cooke:
Less than a year ago I was an ordinary mechanic earning \$25 to \$30 a week. Today, thanks to you, I am an "Electrical Expert" in business for myself and making over \$750 a month.

My Success, Mr. Cooke, is due entirely to the invaluable help you have given me during the past few months. The thorough, practical training I secured through your "Evening-Learned, Spare-Time, Home-Study Course in Electricity," has made me financially independent and a highly respected business man in this community.

Sincerely Yours,
W. E. Pence.

For 15 years Mr. Cooke has been training men at home, during their spare time, for Big Pay Electrical positions, and he has received thousands of letters like this. His system offers every man, regardless of age, education, or previous experience, the chance to become, in a very short time, an "Electrical Expert" able to earn \$5,000 to \$10,000 a year.

ELECTRICALLY TRAINED MEN IN DEMAND

Because of its prominent position in the Electrical Field, The Chicago Engineering Works Factory is being patronized by industries in the larger cities of the United States and Canada, to supply trained men for electrical work.

To meet these demands Mr. Cooke is now enrolling a Special Class for quick training. He has developed from this class a bunch of "Electrical Experts" who can go out and take over the big Electrical jobs that open up from time to time.

Complete particulars and actual proof of the great demand for "Electrical Experts" is contained in a booklet entitled, "How To Become An Electrical Expert," which may be had without cost by writing Chief Engineer Cooke, Chicago Engineering Works, 2150 Lawrence Avenue, Chicago, U.S.A.

W. N. U. 1893

THE NEW PREMIER

Hon. William Lyon Mackenzie King, Leader of the Dominion Liberal Party.

Hon. James Wilson, minister without portfolio.

Two of the defeated ministers—the prime minister and Mr. Wilson—were beaten by Progressives. The others were beaten by Liberals.

One woman was elected, Miss MacPhail, the Progressive candidate in Southeast Grey Ontario. She will be the first woman to sit in the Canadian House of Commons.

Following is a summary of the returns by provinces:

	Lb.	Con.	Pro.	Ind.	Lab.	Doubt

Winnipeg Judge Keeps Promise

Winnipeg—Magistrate Sir Hugh J. MacDonald made good his promise to suppress violent crime in Winnipeg with the lash when he sentenced John Hilday to five years in the penitentiary and 20 lashes. Hilday and two companions staged a daylight robbery here, the victim of which was struck over the head with a piece of stove wood. The two companions also received a five-year sentence, but no lashes.

"Cascades" Tonight

For Liver, Bowels

You're bilious! You are headachy, constipated, your ever burn, skin is yellow; your stomach is sour, gassy, upset. No wonder you feel miserable. You need a thorough physic with four gales; take the excess bile from the liver and carry out of the system all the contaminated poison in the bowels. Get a 10-cent box now and let "Cascades" straighten you out by morning.

Tokio Wants Health Centre

Americans Being Interested In Expanding St. Luke's International Hospital

New York—Tokyo wants a health centre like those of the large cities of the United States and Europe. In an effort to obtain it, Dr. R. B. Teusler, director of St. Luke's International Hospital at the Japanese capital, has just come to New York to interest Americans in a project to expand that institution as to equip it to perform the functions of a health centre. At present Tokyo has no institution that would correspond to the health centre of other nations.

Starving Man Was Housed

Sheffield, Eng.—An unemployed laborer found three sacks filled with all-purpose and other articles stolen from the home of C. E. Siddall, steel works manager, although he was almost starving, the laborer took the stolen articles to the police station.

U.S. View On Dominion Elections

Opinions Varied on Possible Tariff Actions of New Canadian Government

Washington.—There is much speculation among members of Congress as to the possible effect of the elections on tariff relations between the United States and Canada. Special interest is being taken in the situation by members of the House ways and means committee which has jurisdiction over tariff matters. Despite the fact that Premier Meighen, who openly advocated a high tariff for Canada, has been defeated, some authorities in Congress express the view it would be difficult to revive reciprocity or bring about mutually low tariffs.

Representative W. H. Green, of the House ways and means committee, said the real difficulty would be to find a place to start. He said with United States' farmers and manufacturers both insisting on high tariffs, he did not see how reciprocity could be revived.

Others take the view that if the "Harding" administration is given the broad powers it seeks in handling tariffs, the new government of Canada will be able to achieve much in keeping down tariff barriers by negotiating with the President.

Memorites Leave For Alabama

Will Establish New Homes In Southern State

Regina.—The trek of the Menomites from Saskatchewan has commenced. The first special train bearing a party of 115 of these people left Regina on its way to Yellow Pine, Alabama, where they intend to establish their new homes in the clearings of the United States Land and Cattle Co. The special train is taking up was chosen by friends who went to Alabama some months ago and who have reported the district as one very favorable for settlement by the Menomites.

It is the first large party to move, and the forerunner of others, for Mr. Emerson, who is directing the Menomites to their new homes, admits that fully fifty more families are expected to leave before six weeks have elapsed.

Jamaica Prefers Canadian Flour

Change in Bill Will Affect Imports From U.S.

Kington, Jamaica.—The Government introduced a tariff bill in the Legislative Council under which preference of 5 per cent. is given all British manufactured goods. British cotton piece goods will obtain a preference of 50 per cent. and Canadian flour a preference of 25 cents per bag.

These changes in the tariff, it is believed, will materially affect importations from the United States.

Immigration Quotas Exhausted

New York.—It is announced at Ellis Island that the immigration quota for the following countries for the year had been exhausted. Greece, Spain, Africa, Atlantic Islands, Yugoslavia, Palestine, Portugal, New Zealand, Syria-Smyrna and the districts listed as "other Europe" and "other Asia."

Miss Flora Boyko Tells How Cuticura Healed Her Pimples

"My face was very lumpy at first, and after that it was covered with pimples that disfigured it badly. The pimples were hard and red and they were so itchy that I had to scratch and I could not sleep."

"These troubles are the result of a year before I used Cuticura Soap and Ointment when I had used five cakes of Cuticura Soap and five boxes of Cuticura Ointment. I was healed."

(Signed) Miss Flora M. Boyko, Guilford, Conn., Dec. 26, 1921.

Having obtained a clear healthy skin by the use of Cuticura for all toilet purposes, assisted by touches of Cuticura Soap and five boxes of Cuticura Ointment, I feel compelled to include the equally scintillating Cuticura Tale in your toilet preparations.

See Size, Oct. 28 and 30, Sold throughout the Dominion. Cuticura Soap and Ointment, 25¢ each. Cuticura Soap and Ointment, 25¢ each.

British Forming Plans For Launching Of Irish Free State

National Progressive Leader

Hon. T. A. Crerar, Leader of the National Progressives, whose forces made almost a clean sweep in the Prairie Provinces.

U.S. Will Increase Prohibition Force

Congress Asked to Vote Additional Ten Million Dollars

Washington.—Seven hundred and fifty additional dry agents are to be added to the prohibition forces, if Congress allows the estimate of \$10,000,000 deemed necessary for prohibition enforcement during the fiscal year 1922.

These agents would be concentrated in mobile forces to go into several of the largest cities in the country for clean-up drives. From these cities the forces will be shifted to border points and to sea coast cities for drives against widespread successful booze smuggling.

Dyed Her Draperies, Also A Faded Skirt

"Diamond Dyes" add years of wear to worn, faded skirts, waists, coats, stockings, sweaters, coverings, hangings, draperies, everything. Every package contains directions to dye any woman can put new, life-like colors into her worn garments or draperies even if she has never dyed before. Just buy Diamond Dyes—no other brand—and you'll be satisfied. They are guaranteed not to stain, fade, or run. They are made of the finest dyes and are safe to use on all kinds of material, whether it is wool or silk, or whether it is linen, cotton, or mixed goods.

China Orders Goods From German Firms

Process of Recovering Business Connections Will Be Slow

London.—The Germans are gradually returning to China and picking up the threads of their former business; not trading for the present under their own names, but in partnership with Chinese, says a report on the commercial situation of China by H. H. Fox, commercial councillor of the British legation in Peking.

German dyes and paints, needles, metals, drugs and sundries are beginning to appear on the Shanghai market, the report goes on, and it is stated that several important orders for machinery and electric plants have recently been booked by German firms.

There is no doubt, the report says, that the Germans assisted by the comparative cheapness of their products, will gradually recover the share they held in China's foreign trade before the war, but the process will be slow, as they have lost valuable connections, the business organizations they had so laboriously built up have been shattered, and they have suffered a serious loss of prestige in the eyes of the Chinese.

Bandits Captured In Vera Cruz Buena Vista.—Government forces have gained the upper hand over the bandits who have been terrorizing the inhabitants of the territory of Santa Cruz. Colonel Lawrence reports the capture of about 600 of the outlaws, together with 3,000 horses and quantities of arms and ammunition, and the recovery of booty valued at 70,000 pesos.

London.—With the tension and anxiety of the past week giving place to general rejoicing, preparations are being made for the necessary formalities for bringing the new Irish Free State into being.

Nowhere is there any real idea that anything can now happen to prevent its birth, although difficult detail may have to be encountered.

Dowling Street was inundated with telegrams of congratulation from all over the world. The Premier presented to Lady Greenwood, the wife of Sir Hamar Greenwood, the secretary for Ireland, the pen with which he signed the Irish treaty as "an appreciation of your husband's efforts for peace." It is recalled that the Prime Minister's first speech of importance in his political career was delivered in the company of Michael Devitt at a political meeting in Wales in the eighties, and it was in favor of home rule.

Out of the first fruits of the peace—probably arranged for at the conference when the treaty was drafted—was the Royal proclamation releasing more than 3,000 prisoners interned in Ireland. It is reported also that there may be reconsideration of the sentences imposed on those Irishmen convicted of political crimes.

Mother! Open Child's Bowels With California Fig Syrup

Your little one will love the "fruit" taste of California Fig Syrup even if constipated, bilious, irritable, feverish, or full of cold. California Fig Syrup fails to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the bowels and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a spoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

Guardsmen On Duty At Packing Plant

Safeguarding Employees at St. Paul Opposed to Strike

St. Paul, Minn.—Minnesota National Guardsmen were encamped in the packing plant at St. Paul, Minn., St. Paul, prepared to carry out instructions of Governor Fries for safeguarding employees who wish to work, despite the strike of meat cutters and butchers. The men and the guardsmen were mobilized in the district, and it has been planned to clear strike pickets from the streets leading to the plants.

COULDN'T DO HOUSEWORK, HEART WAS SO BAD

Many women get weak and run down and unable to look after their household duties owing to the heart action becoming impaired or the nervous system unstrung.

Nature intended women to be strong, healthy and happy instead of sick and wretched. But how can a woman be strong and healthy when day in and day out she has to go through the same routine of work, sweeping, dusting, cooking, washing, etc. It is any wonder that the heart becomes affected and she gets irritable and nervous, has hot flashes, faint and dizzy spells, smothering and sinking spells and can't sleep at night.

To all women whose heart is weak and whose nerves are unstrung we would recommend

MILBURN'S HEART AND NERVE PILLS

as the best remedy to tone up the system and strengthen the weakened or unstrung heart. Mrs. Daniel Besanson, Loganville, N.S., writes:—"As I was troubled with a weak heart for nearly two years I am writing to tell you what your great remedy, Milburn's Heart and Nerve Pills, has done for me."

My heart was so bad at night I could not sleep, I would take another pill and was so weak I could not do my housework. I tried two doctors, but got no result. I tried pills, but they did me no good. I used six boxes and am completely relieved. I feel like a new woman. The best remedy for heart trouble there is."

Price, 50¢ a box at all dealers, or send for a free trial bottle to The T. Milburn Co., Limited, Toronto, Ont.

British Cattle Embargo Simply A Protection Of Interests Involved

The report of the Royal Commission on the Importation of Store Cattle into Great Britain, has now been made public, and a synopsis will be of interest to many of our readers. An outstanding fact is the declaration that this country's cattle are free from any form of contagious disease that would necessitate their exclusion. The question resolves itself then into one purely and simply of protection to the British interests involved. The conclusions reached, given at the end of the report are: That the admission of Canadian cattle for the purposes other than immediate slaughter would tend to increase the meat supply of the United Kingdom; that such admission would tend to cheapen the meat supply of the country; that the importation of Canadian stores would tend to satisfy in some measure the increasing demand for fresh homeflesh meat; that there is no substantial reason for believing that such admission would introduce disease among British cattle; that such admission would promote the restoration to the Canadian livestock lost during the war; that the introduction of Canadian cattle would advantage the milk supply of Great Britain; that the cost of transportation furnishes a certain measure of protection to the interests of Great Britain; that the crofters and small farmers in the Highlands might in some degree suffer from competition, and that the Irish farmers might experience some diminution in their market. Although the term livestock covers also sheep and swine, the commission thought that the admission of cattle was practically the sole subject of inquiry. The question, however, of admission regarding the admission of sheep, of which Ireland, it was said, could supply 50,000 annually. It was also stated that the importation of sheep into Ireland was entirely prohibited. The estimate of the number of cattle that Canada could supply yearly was upwards of 200,000.

Centenarian Keen On Flying

Engloman 103 years Old Greatly Interested In Airplanes
England can boast of many living centenarians, but the most remarkable representative perhaps of hale old age is Isaac Lamb, Ash, Surrey, who was 103 on Sept. 14. He is proud of the fact that he can still share himself. One of his greatest enjoyments is to sit in the garden and watch the airplanes flying overhead. "I have become quite an expert in airplanes," he said. "My sight is so good that I am able to distinguish the difference between the various kinds."
"I have only lost one tooth, and the doctor says that chewing tobacco has preserved my teeth, which are as firm as a rock," said the old man proudly.
And taking a Brazil nut from his pocket, Lamb broke it with his teeth and proudly held up the kernel for inspection.

Commissioner On Claims

Will Investigate Losses of Canadians Caused By War
Sir Douglas Hazen, Chief Justice of New Brunswick, has been appointed a commissioner to investigate claims of persons residing or carrying on business in Canada, who have been subjected to loss arising through the destruction of life and property through the illegal warfare of the enemy. He will also investigate claims for damages to which persons residing in Canada have been subjected for breaches of contracts, which contracts were prevented from being carried out owing to the operation of the statutory list of persons in neutral countries with whom contracts were declared illegal.

Honest Paris

A black satchel containing \$55,000 in cash was found on the seat of a Paris omnibus one morning recently, written a correspondent. It had been forgotten by a bank messenger who was greatly relieved to find that the conductor of the omnibus had duly delivered it to the lost property office where it lay among umbrellas and odd gloves awaiting redemption.

W. N. U. 1298

Arctic Expedition Ahead Of Time

Crew Confident That Voyage Will Be A Success

The schooner Bowdoin, with the Arctic expedition headed by Donald B. MacMillan had entered Hudson Bay on August 1, several days ahead of its schedule, and it was hoped to pass through the dangerous Fury-Hecla Straits on the west coast of Baffin Island in ten days. The letter was dated "On Board the Bowdoin, Aug. 1, Lat. 64 degrees north, Longitude 75 degrees 20 minutes west."

This was the last chance to send mail, the explorer said. He wrote that unless the people at home heard from the expedition again by April or May it would indicate they had not been able to pass through the strait and had been forced to pass the winter further down the coast. MacMillan reported himself and crew of six well and happy and confident of accomplishing the work mapped out for them.

Direction Finder Saves Ship

Captain of Lord Antrim Received Bearings By Wireless

Had it not been for the direction finder of wireless telegraphy, the SS. Lord Antrim, which docked at Montreal after one of the roughest voyages she has ever made, would have been dashed to pieces on the Virgin Rocks, situated off the banks of Newfoundland.

Captain Jarvis, commander of the big freighter, explained that while the vessel was off this treacherous coast, a terrific gale had been encountered the severity of which made it imperative to heave to. Completely at a loss as to his whereabouts, he communicated with various wireless stations. They immediately sent him his bearings and with this data to work on, he made the startling discovery that his ship was drifting in the dark straight for the Virgin Rocks at a speed of nearly eight knots an hour.

To Make Artificial Ice

The Arctic Ice Company, of Winnipeg, with a capital of one million dollars, will erect a plant to manufacture artificial ice with a capacity of 200 tons daily. This is in addition to their natural ice harvest.

Speckled Trout In Northern Rivers

Fish Are Identical With Those Caught In Nipigon

The speckled trout streams of Northern Ontario, invaded yearly by sportsmen from all over the continent, may have a rival in Northern Manitoba. Genuine speckled trout, identical with those found in the Nipigon River, have been caught in the Kesteven Rapids on the Nelson River. With all the skeptics satisfied, there is talk of stocking some of the lakes, such as Clearwater, with the spawn of these fish as an inducement to sportsmen, and many advocates of this plan believe a few more years may see fishermen from all over the world streaming into the north country after the speckled trout.

It has often been claimed that these were no speckled trout north of the great divide in the waters emptying into Hudson's Bay, but all doubts have been set aside by a local resident, formerly engaged in the fish hatchery business, who has caught trout at Kettle and declares them to be the same as those found in Ontario waters. The fish are said to be of a good size and very plentiful.

Breaking Up Stone Walls of Samos

Reminder of Days When Cannibals Lived On Island

Many miles of ancient stone walls, which bear witness to ancient Samoan savagery, are now being broken up and used as road metal.

These walls form great enclosures, and must have been built with prodigious labor. They probably date back 600 or 700 years, and are grim reminders of the days when Samos was a cannibal island.

Cannibals came to an end in Samos about 160 years ago, but before that time these enclosures were used by the Samoans for imprisoning victims captured from neighboring islands.

His Letter of Recommendation

Bridget left Ireland with an excellent letter of recommendation from her last mistress, but on the way over the letter fell into the sea and was lost. Not knowing how to find work without her recommendation she appealed to a friend to write one for her and he gave her the following:

To the General Public—Bridget Flaherty had a good reputation when she left Ireland, but lost it on the way over.

The recent census figures show that seven out of every ten centenarians in the British Isles are women.

Better Methods Needed For Improving Grade Of Western Wool

War Mascot Dead

Cat Attached Himself to French Soldiers at Amiens

The French press pays tribute to a hero of the war, whose death has just been announced. The hero in question was named Diamond, and was a cat that attached himself to the French in the lines before Amiens. Every day Diamond might be seen threading its way through the entanglements to the German front trench. The Poils were afraid that some harm might come to their mascot, and in order to protect it they tied a jacket of cigarettes around its neck before it started out on its daily rambles, bearing the words: "I bring you cigarettes; do not kill me." Diamond, being a war veteran, had a right to a comfortable home when the armistice was signed, and was sent to an animal home superintended by the Comtesse Yuzkevich at Neuilly, where it died.

Trapping Season Will Be Good

Muskrats Have Increased In Northern Saskatchewan Since War

Judging by reports received by the chief game guardian, the trappers will have a splendid season in Northern Saskatchewan. More licenses than last year have been secured and indications point to the fact that muskrats, heavily depleted during the war and the years of high prices, have again increased considerably in numbers in the northern part of the province.

Foxes, too, will provide good trapping, but the catch of beaver is likely to be small.

His Title Clear

A Pennsylvania lawyer was once arguing a case on behalf of a Hungarian and had displayed great knowledge of Hungary and its people.

"Come, come," said the judge at last, "you know you cannot make yourself out to be a Hungarian."

"Perhaps not," said the lawyer, "but I have made a great deal of money out of Hungarians in my time."

"In that case," suggested the judge, "suppose we call you a Hungarian by extraction."

Spend your money at home, thereby helping your own town and local merchants.

The wool from the farms of the provinces of Manitoba and Saskatchewan was sold through the wool-growers' co-operative organization and graded by Dominion Government graders has graded lower, been harder to sell, and as a result fetched lower prices than that from other provinces. Not only is this true when the comparison is made with the range wool, where different breeding and conditions would justify the difference, but it is also true when these wools are compared with the domestic wools of Eastern Canada, where the flocks are of similar breeding and are fed under farm conditions. There is no inherent disadvantage in the climatic or other conditions of these provinces to justify this inferiority. It is due wholly to poor methods in the breeding, feeding and handling of the farm flocks. A few years ago the butter from these provinces had an equally bad reputation, now it takes its place with the very best. That change was brought about by intelligent improvement in the dairy end of farming and butter-making. A similar improvement could be made in the quality of our wool.

The faults in the wool which reduce the grade are chiefly two, viz., "burry and seedy" is a trade term which covers more than burrs and seeds. Any kind of vegetable matter in the wool will put it into this grade. Chaff is probably the principal offender in western wool, and is very objectionable. It is impossible to get it all cleaned out by any known process. Most of it is removed but the operation is expensive. Some particles remain and get into the cloth. They will not take the dye and make an unsightly blemish in the cloth. Consequently wool buyers fight shy of "burry and seedy." Last year (1930) twenty per cent of the Manitoba and Saskatchewan domestic wool graded "burry and seedy." The price of "low medium combing," which was our principal grade, was twenty cents; "burry and seedy" of the same quality brought fifteen and three-quarter cents. Consequently the loss on this grade was very serious.

A conference of representatives of departments of agriculture and interested organizations was held in Regina on August 4. The following recommendations were made by that conference:—

- (1) To eliminate "burry and seedy" wool.
- (2) Never allow sheep to run or feed around straw stacks.
- (3) Use proper feeding racks tightly boarded to within six or seven inches of the ground so as to prevent chaff getting into the neck and head wool.
- (4) Use of slanting racks recommended on account of larger capacity and allowing of easier filling, feeding openings to be six or seven inches vertically and about three inches wide.
- (5) If sheep are fed on the ground, never throw feed over their backs. Keep sheep out of the yard while feed is being placed on the ground, providing separate yard in which to confine them while this is being done.
- (6) In selecting breeding animals, greater care should be exercised, special efforts being made to get rams and ewes having dense, compact fleeces which will shed chaff and refuse. This does not necessarily involve cross-breeding but may be practised within the breed now used.
- (7) If only the neck and shoulder of a fleece contain quantities of chaff or straw this portion of the fleece should be removed at shearing time and tied and sacked separately. This procedure, however, is not advised where the fleeces are of the best quality, but is desirable where the removal of a small portion would raise the balance of the fleece into the straight grades.

To Vindicate the Law

British Vindictive correspondent cables that Lord Reading, Attorney General of India, replying to a committal deputation which waited upon him, said that recent events had rendered imperative the exercise of the Government's full strength for the purpose of vindicating the law and preserving order. He promised the fullest protection to all law-abiding citizens.

Attached to the Salvation Army in London is a dead and dumb corpse.

A Grand Old Sea Empress

When the Empress of Japan sailed from Vancouver for Yokohama, Kobe, Nagasaki, Shanghai and Hong Kong a short time ago, she started on her one hundred and fifty-fifth voyage. A voyage in steamship parlance is a round trip, or, in other words, until the ship returns to her home port again. The distance from Vancouver to Hong Kong is 7,291 miles, or a total of 14,582 miles to be covered on each voyage. When the Empress of Japan arrived at the port of Vancouver, she established a record for Trans-Pacific voyages. With the completion of her one hundred and fifty-fourth voyage, the Empress of Japan had covered 2,600,000 miles in the Canadian Pacific service, or equal to nearly one hundred times around the globe. In computing this record, there is not taken into her account her four years' war service.

The Empress of Japan was built at the yards of the Naval Construction and Armaments Company at Barrow-on-Furness, and arrived at Vancouver in 1901. She is a steel, twin-screw steamship, three masts two funnels, of 6,000 tons, is 455.5 ft. in length, 51.5 ft. in breadth, and 33.1 ft. in depth. 100 A-I according to Lloyd's Register, and is noted for her trim yacht-like appearance. She has enjoyed greater popularity during her entire career than almost any of the smaller class of steamships on either the Atlantic or Pacific.

For thirty years the Empress of Japan has been in constant service without a single mishap to mar her record. Although in her day she was considered the finest of her type afloat, and for two decades was "Queen of the Pacific," she relinquished that honor only when the

speedier and larger Empress of Russia and Empress of Asia were added to the Canadian Pacific fleet between Vancouver and the Orient. It is a tribute to the builders of the early days when it is known that the ship's original boilers are still in her hull and doing good service. In fact, the Empress of Japan still maintains a speed of 16 1/2 knots an hour, and on October 8 she made 37 miles in the twenty-four hour period. The Empress of Japan accomplished the last trip from Yokohama to Vancouver in a little less than 12 days, allowing for the meridian day. Some of the crack American liners which have recently entered the Pacific service are considered to have excelled themselves when they cover the distance in from 14 to 15 days.

World Happenings Briefly Told

The German currency output during the last week in November increased 4,750,000,000 marks.

Emil Neimi, a settler near Rowan, brought into Fort Arthur the first pet of a brush wolf for this fall. He received the \$20 bounty.

Andrew Macdonald & Son, of Chatham, Ont., received the only award given to Canadian corn at the big fair held in Chicago.

An inquest into the death of an aged widow at Shorelitch, Eng., revealed the fact that her skull was three-fourths of an inch thick.

The national diet has passed a law imposing a tax of eight per cent. on interest from investments by foreigners in Finland.

Loud horns on Paris taxi-cabs have been declared illegal and proceedings are being taken against their users. That's part of the campaign to reduce Paris noises.

Denial was given at the home of former Emperor Wilhelm at Doorn, Holland, of the report of his betrothal, says a dispatch to the Daily Mail from Doorn.

A decree exempting from duties all cattle and horses entering Mexico will be promulgated shortly, according to official information, in order to assist ranchers to replenish their herds, depleted by years of revolution.

The Mexican Government is heartily in accord with the proposal to establish closer trade relations between Canada and Mexico and better steamship connections between the two countries.

Reuter's Melbourne correspondent cables that there are reiterated demands upon the Federal Government of Australia for resumption of trade with Germany. Imports from Germany are supposed to be absolutely barred, but it is apparent that indirect operations in this line are proceeding to a considerable extent, altogether nullifying the effect of the prohibition.

RHEUMATISM?

Health is the Most Valuable Asset You Have. You cannot afford to neglect it.

Crofton, B. C.—"I was troubled for years with inflammatory rheumatism and rheumatoid fever. I tried several cures for rheumatism, but did not receive any benefit from any of them. I had been in the hospital for months, being unable to walk. A friend advised me to try Dr. Pierce's Ankleo Tablets. After taking the first bottle I began to improve, and after taking six bottles I had no more rheumatism. I think Dr. Pierce's Ankleo is the most wonderful medicine that any one can take for rheumatism. I have recommended these tablets to several of my friends and they too have all been benefited by them."—Melville Collinson.

People are realizing that the kidneys, just as do the bowels, need to be flushed occasionally. The kidneys are an eliminatory organ and are constantly working, separating the poisons from the blood. Uric acid backs up into the system, causing rheumatism, neuralgia, dropsy and many other serious disturbances. This can be avoided by stimulating the kidneys to increased action, and because of its tonic effect on these organs any one would do well to get Dr. Pierce's Ankleo Tablets which are to be had nowadays at almost any drug store or send 15c to Dr. Pierce's Laboratory in Bridgeport, Ont., for trial package and write for free, confidential medical advice.

Boring Power Of Ants

Engineer Found They Had Eaten Through Lead Cable

An extraordinary instance of the boring power of white ants comes from New South Wales.

An engineer who was repairing a buried lead-covered telephone cable found that the ants had eaten their way inside. They had first bored through an outer covering of timber, which had been purposely steeped in arsenic, then through a layer of well-paraffin, and finally through the lead covering itself.

In spite of their difficult journey and their meals of arsenic and paraffin, the ants were full of life when they were discovered.

HEALTHY CHILDREN ARE HAPPY CHILDREN

The well child is always a happy child—it is a baby's nature to be happy and contented. Mothers, if your little ones are cross and peevish and cry a great deal they are not well—they are in need of medicine—something that will set their bowels and stomach in order, for nine-tenths of all childhood ailments arise from a disordered state of the bowels and stomach. Such a medicine is Baby's Own Tablets. They are a mild but thorough laxative which regulate the bowels, sweeten the stomach and thus drive out constipation, colic, indigestion, break up colds and simple fevers and make the baby healthy and happy. Concerning them, Mrs. Albert Hamel, Pierreville, Que., writes:—"Baby's Own Tablets are the best medicine I know of for little ones. They relieved my little girl from constipation when nothing else would, and I can strongly recommend them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

British Columbia Rhodes Scholar
Lester W. McLennan, Vancouver, of the arts class 1922, University of British Columbia, has been recommended for the Rhodes scholarship.

A Hundred Dollars Worth For Thirty-Five Cents

When you are awakened from a sound sleep by cramps, when without a moment's warning pain springs upon you, it's when you would readily pay a hundred dollars for the quick relief you could secure from a thirty-five cent bottle of trusty old Nerviline. Nothing like Nerviline to relieve cramps, stomach gas, diarrhoea and kindred ills. Nothing better for Neuralgia, cold in the chest and sore throat. The price of Nerviline is thirty-five cents, no more, no less, in all stores where medicines are sold.

Most of the shadings in this life are caused by standing in our own sunshine.

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

A Little Bit of Time

Measuring a Thousandth Part of a Second

What can happen in the thousandth part of a second?

This question comes to the mind when we hear of the wonderful instrument in use at the Royal Observatory at Edinburgh, Scotland, which Professor Sampson recently described at the British Association meeting.

A wireless signal will travel 186 miles in a thousandth of a second; a ray of light will do the same; an express train travelling 60 miles an hour will cover just under one inch in the time.

It is for registering with great precision the time of any signal that this wonderful instrument has been made. It is an electric detector and records the movements of a tiny spot of light on a moving photographic film. These very minute measurements are becoming more important every day, as it is by studying the infinitely little that our knowledge of the big things can be advanced.

As a verifuge an effective preparative is Mother Graves' Worm Expeller, and it can be given to the most delicate child without fear of injury to the constitution.

True Self-Examination

"That fellow," said a man, as he pointed to a passing youth, "is the most egotistical young fellow I ever met."

"Why so?" asked his companion. "Why, yesterday on his birthday he sent a collect message congratulating his mother."—Boston Globe.

LOCAL AND GENERAL

The annual meeting of the U. F. W. A. Local No. 115 was held at the home of Mrs. A. A. Hall, on Wednesday week.

The business of the year was cleared up, and the following officers were appointed for 1922.

President: Mrs. O. E. Jones
Vice-Pres.: Mrs. E. F. Brown
Sec. Treas.: Mrs. Scholtefeld.

Mrs. Jones was also appointed delegate to the Annual Convention to be held in Calgary in January, with Mrs. F. Purvis as substitute.

The first meeting of the New Year, will be held at the home of the President, where it is hoped there will be a large attendance.

Crossfield hold Calgary Capitals to a Tie

On Saturday last the local Hockey team met the Calgary Capitals in an exhibition game here, although the weather conditions were anything but ideal a real good game was put up. On account of the weather the crowd of spectators was not as big as will be looked for on more favorable occasions. The Crossfield boys surprised the Calgary aggregation, especially in the third period, Calgary were leading 2-0 and the home boys put on a wonderful exhibition of skating and stick handling. Treva scoring one and McFarlane two thus gaining the lead. In the last half minute of the fourth fifteen-minute period Devitt snatched up a glorious opportunity and put the puck into the Crossfield net, this tied the score 3-3, the game being called almost immediately.

WEDDING

BEISHAW - - - RAYBOULD

On Saturday last, December 17th, a very pretty wedding was solemnized at Oliver Baptist Church, Calgary, when Mr. James Beishaw, of Crossfield, and Miss Isabella Raybould, of London, England, were united in marriage, Rev. H. Wright, Pastor, officiating.

At 4 p.m. the bride entered the church on the arm of Mr. W. A. Wallock, of Crossfield, to the strains of "Lohengrin" Wedding March, beautifully rendered by Miss Fonda Wilson.

The bride was very prettily attired in a navy tailored suit, and carried a beautiful bouquet of bridal roses. Immediately after the ceremony Mr. W. A. Wallock sang the solo "Until".

Following the ceremony a reception was held at the home of Mrs. McConnell, 1733 Twelfth Ave., W. Calgary. Among those present were, Rev. H. C. Wright, Mr. and Mrs. W. A. Wallock, Mr. and Mrs. M. Turner, Master, J. W. Beishaw, Miss Fonda Wilson, Miss E. McConnell, Miss Foss Banta, Miss Katie Meahan, Miss K. Givens.

The parlors were profusely decorated with white and yellow mums and holly.

After partaking of the wedding supper, very beautiful music was rendered by Mrs. Turner, Mr. Wright, and Mr. Wallock. A very enjoyable evening was spent. Mr. and Mrs. Beishaw accompanied by several friends left on the train for their home in Crossfield.

The kind wishes of many Calgary and Crossfield friends are extended for their future happiness.
